# GO DADDY WEB BUILD-A-THON PROJECT
(FOOD AND DRINKS DOMAIN)

INTRODUCTION:

The domain which I chose to build a website for this project is "FOOD AND DRINKS". Food is important to each and every human being inorder to survive.Eating Good food is what each one of us wants.So,I built a website for restaurant named"THE CAPITAL GRILL".The main objective of this restaurant is to give good food which is yummy and healthy, and should attract lot more customers with affordable prices.

Standing out among the competition is not easy for most restaurants.Unless the establishment has built a rock-solid reputation over time or managed to make a major splash early on,it can be very difficult to attract new customers. Consistency in all operations,good food and friendly service are all vital for a shot at success.

THIS IS THE DIAGRAMMATIC OVERVIEW FOR THE PROJECT (FOODMANAGEMENT)

The website which I built is focussed on the quality of food which brings us to chefs.We only hire the top chefs who are proffesionals and have a lot of experience.The second important thing is sanity.The restaurant will be sanitised on a daily basis and also will be following Covid norms.One of the most important things for a restaurant is customers.We need to attract a lot of people ,which will give us profits and also in expanding our business.The website which is created by me,focussed on Barbecue ,food,and also other exciting things like Girl's night,Happy hours etc..

Website had all the information regarding girl's night,happy hours and their exciting offers which will definitely captivate a lot of audience.Other programmes like Live music

which is soothing and pleasant and Stand -up comedy ,which will help in forget all the sadness for a while.

CONCLUSION:

Food is what makes people happy.Thus,I conclude my project with a quote:

"One cannot think well,

sleep well,

if one hasn't DINED well"

HOPE YOU HAVE A GREAT DAY,WITH LOTS OF GOOD FOOD....!!

THANK YOU:)
